During the course of construction and after completion of the home and landscape, the DRC will conduct final inspection(s) in order to verify that the completed Improvements substantially match the plans and any changes thereto as approved by the DRC. The Member/contractor is responsible for submitting a timely request for the DRC to perform each site review inspection at the appropriate stage. Minor field modifications requested prior to implementation do not require a fee and major field modifications requested prior to implementation are $1,000. The DRC has implemented policies wherein a fee up to $20,000 may apply for each field modification that was not submitted and approved prior to such work. Satisfactory completion of all required inspections is required in order to obtain the Certificate of Construction Approval and receive any refundable construction deposit monies, as applicable.

ACKNOWLEDGEMENTS

By signing below, I hereby acknowledge and agree that I understand any modifications/additions to the approved plans must be submitted for DRC review and approval received in advance of (a) any revisions to the approved plans during the course of construction (Field Change Modification Request) and (b) any modifications/ additions as may be desired in the future, which include, but are not limited to, changes in exterior design, materials, and colors, as well as any additions, substitutions or changes to the site and landscaping.
