ACKNOWLEDGEMENTS

By signing below, I hereby acknowledge and attest that the Improvements have been constructed substantially in accordance with the plans and any changes thereto as approved by the Kukui'ula DRC. If a homesite was connected to the sewer lateral as part of the approved Improvements, I hereby attest that, (i) the sewer lateral was connected only after all upstream sewer lines were installed and proven watertight to prevent storm water from entering, (ii) there are no site, roof, and/or pool drains connected to the sewer, and (iii) the connection was constructed in accordance with the applicable detail for the neighborhood per the Construction Rules. If applicable, I hereby attest that any corrective items previously identified in writing by the DRC have been completed.
